Remarks:

1.No. of new A shares of the Bank which may be issued following compulsory conversion upon occurrence of a trigger event pursuant to the terms and conditions with respect to the Onshore Preference Shares = Number of preference shares × subscription price ÷ initial conversion price = 350,000,000 × RMB100 ÷ RMB7.07 = 4,950,495,049 A shares.

2.Conversion Price of the Preference Shares is subject to adjustment. The initial mandatory conversion price will be the average trading price of the Bank's ordinary A shares in the twenty trading days prior to the announcement date of the Board of Directors' resolution to approve this offering of preference shares, which is RMB7.07.

When there is distribution of bonus shares, capitalization of reserves, or additional offering of new shares (excluding shares converted from financing instruments (such as preference shares and convertible corporate bonds) convertible to ordinary shares) at lower-than-market price and rights issue in respect A class of the ordinary shares, the Bank will make cumulative adjustments to the mandatory conversion price according to the above circumstances in the order of their occurrences, but will not make any adjustments because of the Bank's distribution of cash dividend on ordinary shares.

- 3. No. of new A shares of the Bank which may be issued following the conversion upon occurrence of a trigger event pursuant to the terms and conditions with respect to the A Share Convertible Corporate Bonds = Number of A Share Convertible Corporate Bonds in issue as at the end of the month × par value ÷ conversion price = 124,068,710 × RMB100 ÷ RMB6.1 = 2,033,913,278A shares.
- (D). Any other Agreements or Arrangements to Issue Shares of the Issuer which are to be listed, including Options (other than Share Options Schemes) Not applicable
